TENANT INVOLVEMENT

If you are interested in setting up a new community group on your estate we can help you get started, from organising your first event or meeting to providing a range of services and support once your group is up and running. We can help you organise your first event, activity or meeting and help you promote it within your local community and provide support to get other people involved.

We also work in partnership with the council to ensure local people are represented, have a voice and make a difference. We can help support you to get involved with Council ward housing hubs to enable you to have a say on changes to tenant council services, the Tenant Scrutiny Panel, a tenant led group that is supported by Rotherham Federation, the panel aims to identify a specific council service, analyse how it's currently delivered and create a set of recommendations on how that service could be improved, and the housing involvement panel which allows council tenants to find out about what's happening in relation to housing services and to contribute their thoughts and ideas.
