

*Join the fight, take up your invite*

**BREAST SCREENING  
SAVES LIVES**

Breast screening can pick up things that you can't find yourself. The earlier something is found the easier it is to treat.

Keep a look out for your invitation in the post.

**Aged over 50 and not had a mammogram in the last 3 years?**

# Breast Screening Programme

## Aged 50-70?

If you have missed your last mammogram appointment or would like more information on the screening process, contact:

**01709 424807**

**Remember** – if you have received your invitation and can't make the appointment offered, contact the screening unit to reschedule.

Screening appointment received through post

Results sent to home address and GP practice

Attend local breast screening clinic

Results are prepared and generally distributed within two weeks

Prepare for screening: undress in screening room, removing clothing from waist up

Undergo breast screening, the procedure takes on average around 7 minutes
